Hydraulics & Pneumatics

1965 Editorial Index

AEROSPACE EQUIPMENT, INCLUDING GSE

Contamination on TV
By Scholer Bangs Nov. p 120
Design Concepts for Liquid Injection Thrust Vector Control
Part 1—System Considerations Sept. p 120
Part 2—Liquid Injection Valves Oct. p 122
Dual Purpose Fluid Proposed At SAE Ground Equipment Group Sept. p 117
High Temperature Hydraulics for C-141 Thrust Reversers
By Robert Supinger and Frank Hribar Aug. p 95
How LTV Designed for 34% Less Hydraulic Maintenance in the A-7A.
By J. R. Crissey Apr. p 146
Hydraulic Jacks Help Inspect XB-70 Landing Gear
By Carl Johnson Dec. p 95
Hydraulic Starters for Jet Engines
By Edward V. Misulis and Lyston C. Jennings June p 88
Modified Hydraulic Test Cart Speeds Aircraft Testing
By Carl J. Erbe May p 104
SAE Ground Support Group Reviews Adsorptive Dryers May p 101
SAE's Aerospace A-6 Committee Stakes Claim on Ocean Bottom! July p 103
Saturn V Actuator Tested on Dynamic Load Simulator Mar. p 107
vironment
By Bill E. Duff June p 92
Two-Speed System Positions Airplane Boarding Ramp
By Donald Green and Gerald Wolland Mar. p 114
Variable Damping Overcomes Gas Compressibility
By William Frantz and Jack Van Hook Nov. p 116
What We Learned From the Dyna-Soar
By E. T. Raymond and S. J. Soderlund July p 104
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

AIR COMPRESSORS, VACUUM PUMPS & ASSOCIATED EQUIPMENT

Air Motors & Compressors—Fluid Power Products Review Jan. p 160
Compressors & Vacuum Pumps—Quick Guide to Product Selection Jan. p 98
Designing a Portable Air Supply for Intermittent Duty
By Earl R. Johnson Mar. p 96
Fire-Resistant Lubricants for Air Compressors
By Gary Rekstad Nov. p 100
Pumps, Motors & Air Compressors Fluid Power Products Review (Aerospace Products) Jan. p 242
What You Should Know About Air Compressor Filters
By N. L. Lamprecht Mar. p 87

ASSOCIATION & TECHNICAL MEETINGS, SURVEYS, STANDARDS

Annual Review of Catalogs & Technical Information July p 69
Design Engineering Show & Conference Apr. p 68
Dual Purpose Fluid Proposed at SAE Ground Equipment Group Sept. p 117
International Hydraulics & Compressed Air Exhibition & Conference Apr. p 104
Let's Look Ahead at Fluid Power for Aerospace
By Edwin Jacobs Feb. p 91
National Conference on Fluid Power—Abstracts Oct. p 33
SAE Aerospace Fluid Power Systems & Equipment Conference & Engineering Display Apr. p 86
SAE Ground Support Group Reviews Adsorptive Dryers May p 101
SAE's Aerospace A-6 Committee Stakes Claim on Ocean Bottom! July p 103
What Should Pneumatic Valve Standards Include?
By Gary Rekstad Mar. p 92
Part 1—Operating Life
Part 2—Flow Capacity and Shifting Speed May p 94
Part 3—Electrical Characteristics July p 98
Part 4—Mountings & Markings Sept. p 98

BASIC TECHNOLOGY

Calculating Fluid Flows Through Orifices
By Lloyd M. Polentz Feb. p 66
Design Analysis Applied to Testing
By Oliver E. Drummond Mar. p 98
Design Concepts for Liquid Injection Thrust Vector Control
Part 1—System Considerations Sept. p 120
Part 2—Liquid Injection Valves Oct. p 122
Designing a Large Hydraulic System For Balance
By Nissim Franco Sept. p 106
Determine Orifice Discharge Coefficients This Easy Way
By H. G. Carter Aug. p 76
Select Line Sizes for Performance
By Fred W. Dorenbos Mar p 84
Select Tube Wall Thickness With These Nomograms
By. F. Caplan June p 76
Sizing Accumulators For Pulsation Damping
By John G. Russell Aug. p 71
Understanding Transient Flow Force in Valves
By Howard L. Harrison May p 92

CIRCUIT DESIGN

A Design Approach to Pneumatic Control
By E. L. Holbrook Oct. p 91
Air Pressure Sequences Bottle Operation
By Joseph Gasior Dec. p 96
Air-Controlled Projection Welder Mar. p 28
Air-Oil System Stops Load Quickly, Smoothly Oct. p 18
Brush Up on Your Circuit Symbols
By Gary Rekstad June p 70
Circuits Use Adjustable Magnetic Detent Valve Apr. p 30
Designing Hydraulic Systems for the Heavy Ones
By Richard Gewartowski and Jerry Reinhart Mar. p 79
Dual Piston Air Cylinder Controls Temperature of Press Platens
By Robert Thomas Nov. p 94
Dual Pressure Compensator Pressurizes Press Rapidly
By Richard A. Danly June p 83
Five Hydraulic Tracer Circuits
By Ramon Farrando Boix May p 88
Flow Divider Reduces Pump Requirements May p 24
High Temperature Hydraulics For C-141 Thrust Reversers
By Robert Supinger and Frank Hribar Aug. p 95
How National Acme Simplifies Pneumatic Design
By William F. Morgan Feb. p 53
How to Boost Reliability of Industrial Servo Systems
By Willard M. Walthall Sept. p 91
Hydraulic Starters for Jet Engines
By Edward V. Misulis and Lyston C. Jennings June p 88
Hydraulic Table Follows Contour of Human Body Mar. p 24
Hydrostatic Drive for Ship Winches May p 28
Hydrostatic Drive Gives Mixer Constant Horsepower May p 26
Koehring's Skooper — Pneumatics for Remote Control
By Charles L. Fleming Nov. p 81
Mobile Power Unit Stresses Long Concrete Beams June p 20
Modified Hydraulic Test Cart Speeds Aircraft Testing
By Carl J. Erbe May p 104
Pneumatic Logic Circuits
By E. L. Holbrook Apr. p 140
Part 13—Limited Memory Circuits
Part 14—Selective Control From Six Stations June p 68
Part 15—Air Multivibrator Operates Ratchet Wrench Sept. p 110
Pneumatic Programmer Sequences Baler
By James I. Morgan May p 71
Relay Valve Simplifies Air Circuitry
By Kent S. Ellis and Donald Delay Apr. p 126
Sequence Valve Regulates Hydrostatic Circuit
By John P. Duncan May p 90
Sequencing a Pneumatic System Mechanically
By John A. Lankester Apr. p 120
Servo Simulator Withstands Vibration of Rocket Motor
By David W. Nestor Nov. p 89
Servo-Controlled Pumps For Variable Speed & Constant Power
By F. S. Coleman Aug. p 67
Servosystem Synchronizes Rotary and Linear Motions
By C. E. Cumberworth Apr. p 134
Servovalve Controls & Protects Miner's Cutting Heads
By Carlton B. Frellsen Oct. p 85
Synchronized Cylinders Lift Unbalanced Load
By John W. Tenhundfeld Apr. p 117
Thermostatic, Hydraulic Control of a Cooling System
By Leonard M. Kovacheff May p 98
Timer Valve Controls Air Press Circuit
By Pat Burns Dec. p 108
Tool Feed Designed For Adequate Pump Flow Oct. p 22
2-in-1 Valve Sequences Coal Mine Cylinders Oct. p 26
Two-Speed System Positions Airplane Boarding Ramp
By Donald Green and Gerald Wolland Mar. p 114

Variable Damping Overcomes Gas Compressibility
By William Frantz and Jack Van Hook Nov. p 116
Vented Relief Valve Cools Hot Robot
By Aaron Kutz Sept. p 112
Watch What You're Doing—With Solenoid Valves
By J. M. Levon Apr. p 124
What They're Doing with Pneumatic Control
By Allan E. Morris May p 76
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

COMPONENTS (See also specific components)

Accessories—Fluid Power Products Review (Aerospace Products) Jan. p 234
Accumulators—Quick Guide to Product Selection Jan. p 94
Designing Hydraulic Components of Aluminum
By E. L. Roob Nov. p 108
Gauges, Indicators, & Test Equipment—Fluid Power Products Review Jan. p 184
Generating Test Pressure Surges
By Dieter E. A. Tanneburg Mar. p 86
Pressure Gauges—Quick Guide to Product Selection Jan. p 128
Pumps, Fluid Motors & Accumulators—Fluid Power Products Review Jan. p 204
Servo Simulator Withstands Vibration of Rocket Motor
By David W. Nestor Nov. p 89
The XB-70: Thrust Forward For Fluid Power
By R. J. Dawson Dec. p 79

CYLINDERS, SHOCK ABSORBERS, INTENSIFIERS

Air & Oil Cylinders—Quick Guide to Product Selection Jan. p 99
Air Cylinders Balance, Protect Assembly Machine Oct. p 30
Air-Operated Mechanism Clamps Parts
By R. J. Oertel July p 90
Compacting Material Hydrostatically June p 22
Cylinders, Rotary Actuators, & Intensifiers—Fluid Power Products Review Jan. p 162
Designing a Large Hydraulic System for Balance
By Nissim Franco Sept. p 106
Designing Hydraulic Systems for the Heavy Ones
By Richard Gewartowski and Jerry Reinhart Mar. p 79
Dual Piston Air Cylinder Controls Temperature of Press Platens
By Robert Thomas Nov. p 94
Duplex Air Cylinder Actuates Water Valve
By Paul Catching Aug. p 90
Fluid Power: Key to Sophisticated Sawmill
By Ivan G. Myers Nov. p 106
High Temperature Hydraulics For C-141 Thrust Reversers
By Robert Supinger and Frank Hribar Aug. p 95
Hydraulic Lifts Maintain Airport Facilities Feb. p 24
Intensifiers, Hand Pumps & Air Powered Pumps—Quick Guide to Product Selection Jan. p 122
Mobile Power Unit Stresses Long Concrete Beams June p 20
Servovalve Controls & Protects Miner's Cutting Heads
By Carlton B. Frellsen Oct. p 85
Shock Absorbers Make Straightening Job Safe Sept. p 28
Synchronized Cylinders Lift Unbalanced Load
By John W. Tenhundfeld Apr. p 117
Teflon Bearings for O-rings
By Robert E. Huffman Nov. p 85
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

ELECTRIC MOTORS & CONTROLS

Electrical Controls & Motors—Fluid Power Products Review Jan. p 172
Limit Switches Automate Drill Aug. p 26
Look for These Features When Selecting a Hydraulic Solenoid Valve Oct. p 107
Pressure Switches—Quick Guide to Product Selection Jan. p 129
Trends in Machine Tool Hydraulics
By Robert L. Ruth Sept. p 94
What Should Pneumatic Valve Standards Include?
By Gary Rekstad
Part 3—Electrical Characteristics July p 98

FLUIDS, FILTERS, RESERVOIRS, HEAT EXCHANGERS

Changing Requirements for Hydraulic Fluids.
Part 1—What's Happening in Fluid Development?
By Allan E. Morris and Henry Lefer Feb. p 69
Part 2—Comments From Pump Manufacturers
By Allan E. Morris Apr. p 130
Part 3—The Needs of Mobile Equipment Manufacturers
By Tobi Goldoftas June p 78
Part 4—What Machine Manufacturers Need
By Allan E. Morris Aug. p 82
Contamination on TV
By Scholer Bangs Nov. p 120
Designing a Large Hydraulic System for Balance
By Nissim Franco Sept. p 106
Dual Purpose Fluid Proposed at SAE Ground Equipment Group Sept. p 117
Filters—Fluid Power Products Review (Aerospace Products) Jan. p 239
Fire-Resistant Lubricants for Air Compressors
By Gary Rekstad Nov. p 100
Heat Exchangers—Quick Guide to Production Selection Jan. p 114
High Temperature Hydraulics for C-141 Thrust Reversers
By Robert Supinger and Frank Hribar Aug. p 95
How the Bureau of Mines Tests Fluids for Fire-Resistance Nov. p 87
Hydraulic Filters—Quick Guide to Product Selection Jan. p 116
Hydraulic Fluids—Quick Guide to Product Selection Jan. p 118
Hydraulic Jacks Help Inspect XB-70 Landing Gear
By Carl Johnson Dec. p 95
The Mechanics of Wire Cloth Filter Flow
By Royce F. Church, Ernest C. Fitch, Robert E. Reed, and Roger H. Tucker Oct. p 99
Power Units, Fluids, & Reservoirs—Fluid Power Products Review Jan. p 188
SAE's Aerospace A-6 Committee Stakes Claim on Ocean Bottom! July p 103
Servo Simulator Withstands Vibration of Rocket Motor
By David W. Nestor Nov. p 89
Tests Compare Surface & Edge Type Filters
By Walter Kasten July p 96
Three Ground Units Support The XB-70
By Conrad A. Pelletier Dec. p 91
Vented Relief Valve Cools Hot Robot
By Aaron Kutz Sept. p 112
What We Learned From the Dyna-Soar
By E. T. Raymond and S. J. Soderlund July p 104
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

FLUID MOTORS, ROTARY ACTUATORS (Hydraulic & Pneumatic) & HYDROSTATIC TRANSMISSIONS

Air Motor Lowers & Raises Workers Safely Mar. p 32
Air Motors & Compressors — Fluid Power Products Review Jan. p 160
Cylinders, Rotary Actuators, & Intensifiers—Fluid Power Products Review Jan. p 162
Fluid Motor Drives Hydraulic Auger Nov. p 28
Hydraulic Milling Machine Runs Off Tape Control Nov. p 24
Hydraulic Starters for Jet Engines
By Edward V. Misulis and Lyston C. Jennings June p 88
Hydrostatic Drive for Ship Winches May p 28
Hydrostatic Drive Gives Mixer Constant Horsepower May p 26
Pumps, Fluid Motors & Accumulators—Fluid Power Products Review Jan. p 204
Pumps, Motors & Air Compressors—Fluid Power Products Review (Aerospace Products) Jan. p 242
Rotary Actuators—Quick Guide to Product Selection Jan. p 135
Sequence Valve Regulates Hydrostatic Circuit
By John P. Duncan May p 90
Servovalve Controls & Protects Miner's Cutting Heads
By Carlton B. Frellsen Oct. p 85
Synchronized Cylinders Lift Unbalanced Load
By John W. Tenhundfeld Apr. p 117
Thermostatic, Hydraulic Control of a Cooling System
By Leonard M. Kovacheff May p 98
Vented Relief Valve Cools Hot Robot
By Aaron Kutz Sept. p 112
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

FLUIDICS

Digital Computer is Fluid Operated Mar. p 26
Fluid Amplifiers—New Dimension for Fluid Power
By Henry Lefer Feb. p 61
Let's Look at Fluidics.
By Henry Lefer
Part 1—Where Are We? Where Are We Going? Oct. p 113
Part 2—Understanding Fluidic Devices Dec. p 102

MACHINE TOOLS

Changing Requirements of Hydraulic Fluids
Part 4—What Machine Manufacturers Need
By Allan E. Morris Aug. p 82
How National Acme Simplifies Pneumatic Design
By William F. Morgan Feb. p 53
Hydraulic Milling Machine Runs Off Tape Control Nov. p 24
Hydraulic Tracer Controls Lathe Nov. p 20

Limit Switches Automate Drill Aug. p 26
Self-Compensating Grinder Aug. p 35
Servosystem Gives Band Saw Constant Feed Rate
By Charles Whitmore June p 65
Tool Feed Designed for Adequate Pump Flow Oct. p 22
Trends in Machine Tool Hydraulics
By Robert L. Ruth Sept. p 94

MOBILE & MARINE EQUIPMENT

Business End of Sweeper Floats on Hydraulics Feb. p 20
Changing Requirements in Hydraulic Fluids.
Part 3—The Needs of Mobile Equipment Manufacturers
By Tobi Goldoftas June p 78
Flow Divider Reduces Pump Requirements May p 24
Fluid Motor Drives Hydraulic Auger Nov. p 28
How They're Piping Mobile Equipment
By Tobi Goldoftas Sept. p 83
Hydraulic Lifts Maintain Airport Facilities Feb. p 24
Hydrostatic Drive for Ship Winches May p 28
Koehring's Skooper — Pneumatics For Remote Control
By Charles L. Fleming Nov. p 81
Log Grapple Has Four Hydraulic Systems Feb. p 22
Pneumatics Increases Pleasure of Pleasure Boats Oct. p 16
Servovalve Controls & Protects Miner's Cutting Heads
By Carlton B. Frellsen Oct. p 85
Servovalve Controls System Pressure and Horsepower
By Sidney G. Knight July p 87
Synchronized Cylinders Lift Unbalanced Load
By John W. Tenhundfeld Apr. p 117
2-in-1 Valve Sequences Coal Mine Cylinders Oct. p 26
Watch What You're Doing — With Solenoid Valves
By J. M. Levon Apr. p 124

PACKINGS & SEALS

High Temperature Hydraulics For C-141 Thrust Reversers
By Robert Supinger and Frank Hribar Aug. p 95
O-Rings for Sealing Super Pressures
By Frank H. Miars Apr. p 123
SAE's Aerospace A-6 Committee Stakes Claim on Ocean Bottom! July p 103
Seals & Packings—Fluid Power Products Review Jan. p 210
Seals, Scrapers, Backup Rings & Boots—Quick Guide to Product Selection Jan. p 137
Seals, Tubing & Connectors—Fluid Power Products Review (Aerospace Products) Jan. p 246
Servovalve Controls & Protects Miner's Cutting Heads
By Carlton B. Frellsen Oct. p 85
Teflon Bearings for O-Rings
By Robert E. Huffman Nov. p 85
What We Learned From the Dyna-Soar
By E. T. Raymond and S. J. Soderlund July p 104
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

PIPING

Air Pressure Sequences Bottle Operation
By Joseph Gasior Dec. p 96
High Temperature Hydraulics For C-141 Thrust Reversers
By Robert Supinger and Frank Hribar Aug. p 95
Hose Assemblies—Quick Guide to Product Selection Jan. p 115
Hose Fittings — Quick Guide to Product Selection Jan. p 115
How LTV Designed for 34% Less Hydraulic Maintenance in the A-7A.
By J. R. Crissey Apr. p 146
How They're Piping Mobile Equipment
By Tobi Goldoftas Sept. p 83
Line & Cylinder Tubing—Quick Guide to Product Selection Jan. p 114
Piping Components & Tools—Fluid Power Products Review Jan. p 196
Plastic-Encased Manifold Saves Weight, Space, Cost
By Joseph Shapiro Feb. p 76
Quick-Connect Couplings — Quick Guide to Product Selection Jan. p 133
Rotating & Swivel Joints—Quick Guide to Product Selection Jan. p 136
SAE's Aerospace A-6 Committee Stakes Claim on Ocean Bottom! July p 103
Seals, Tubing & Connectors—Fluid Power Products Review (Aerospace Products) Jan. p 246
Select Line Sizes for Performance
By Fred W. Dorenbos Mar. p 84
Select Tube Wall Thickness With These Nomograms
By F. Caplan June p 76
Simplifying Pneumatic Maintenance June p 28
Tube & Port Fittings—Quick Guide to Product Selection Jan. p 141
What They're Doing with Pneumatic Control
By Allan E. Morris May p 76
What We Learned From the Dyna-Soar
By E. T. Raymond and S. J. Soderlund July p 104
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

PNEUMATICS (Includes air filters, lubricators, dryers)

A Design Approach to Pneumatic Control
By E. L. Holbrook Oct. p 91
Air Cylinders Balance, Protect Assembly Machine Oct. p 30
Air Dehydrators—Quick Guide to Product Selection Jan. p 103
Air Filters—Quick Guide to Product Selection Jan. p 95
Air Line Lubricators—Quick Guide to Product Selection Jan. p 97
Air Pressure Sequences Bottle Operation
By Joseph Gasior Dec. p 96
Air Screwdriver has Low, High Torque
By Herb J. Gailey Aug. p 80
Air-Controlled Projection Welder Mar. p 28
Air-Oil System Stops Load Quickly, Smoothly Oct. p 18
Air-Operated Mechanism Clamps Parts
By R. J. Oertel July p 90
Diverter Valve Actuated Pneumatically Nov. p 30
Duplex Air Cylinder Actuates Water Valve
By Paul Catching Aug. p 90
Filters, Air Regulators, Lubricators & Dryers—Fluid Power Products Review Jan. p 174
Fire-Resistant Lubricants for Air Compressors
By Gary Rekstad Nov. p 100
Fluid Power: Key to Sophisticated Sawmill
By Ivan G. Myers Nov. p 106
How National Acme Simplifies Pneumatic Design
By William F. Morgan Feb. p 53
Koehring's Skooper — Pneumatics for Remote Control
By Charles L. Fleming Nov. p 81
Pneumatic Logic Circuits
By E. L. Holbrook
Part 13—Limited Memory Circuits Apr. p 140
Part 14—Selective Control from Six Stations June p 68
Part 15—Air Multivibrator Operates Ratchet Wrench Sept. p 110
Pneumatic Programmer Sequences Baler
By James I. Morgan May p 71
Pneumatic Systems Keeps a Taut Line
By Alwyn R. Waite June p 75
Pneumatics Increases Pleasure of Pleasure Boats Oct. p 16
Relay Valve Simplifies Air Circuitry
By Kent S. Ellis and Donald Delay Apr. p 126
Rules for Installing Air Line Filters And Lubricators
By Q. R. Gleason Mar. p 102
SAE Ground Support Group Reviews Adsorptive Dryers May p 101
Sequencing a Pneumatic System Mechanically
By John A. Lankester Apr. p 120
Simplifying Pneumatic Maintenance June p 28
Timer Valve Controls Air Press Circuit
By Pat Burns Dec. p 108
2-Way Valve Positions Dies Accurately Nov. p 24
What Should Pneumatic Valve Standards Include?
By Gary Rekstad
Part 1—Operating Life March p 92
Part 2—Flow Capacity and Shifting Speed May p 94
Part 3—Electrical Characteristics July p 98
Part 4—Mountings & Markings Sept. p 98
What They're Doing with Pneumatic Control
By Allan E. Morris May p 76

PRESSES

Changing Requirements of Hydraulic Fluids.
Part 4—What Machine Manufacturers Need
By Allan E. Morris Aug. p 82
Compacting Material Hydrostatically June p 22
Designing a Large Hydraulic System for Balance
By Nissim Franco Sept. p 106
Dual Piston Air Cylinder Controls Temperature of Press Platens
By Robert Thomas Nov. p 94
Dual Pressure Compensator Pressurizes Press Rapidly
By Richard A. Danly June p 83
45 Valves Control 35,000-Ton Press Mar. p 28
Hydraulic Molding Press has 7-Second Cycle Aug. p 37
O-Rings for Sealing Super Pressures
By Frank H. Miars Apr. p 123
Pneumatic Programmer Sequences Baler
By James I. Morgan May p 71
Sequencing a Pneumatic System Mechanically
By John A. Lankester Apr. p 120
Shock Absorbers Make Straightening Job Safe Sept. p 28
Timer Valve Controls Air Press Circuit
By Pat Burns Dec. p 108
Toggle Press Closes Fast, Squeezes Hard
By Les Ehmann Apr. p 128
2-Way Valve Positions Dies Accurately Nov. p 24

What They're Doing With Pneumatic Control
By Allan E. Morris May p 76

PRODUCTION EQUIPMENT (Including Central Hydraulic Systems)

A Design Approach to Pneumatic Control
By E. L. Holbrook Oct. p 91
Air Cylinders Balance, Protect Assembly Machine Oct. p 30
Air Pressure Sequences Bottle Operation
By Joseph Gasior Dec. p 96
Air Screwdriver has Low, High Torque
By Herb J. Gailey Aug. p 80
Air-Controlled Projection Welder Mar. p 28
Air-Operated Mechanism Clamps Parts
By R. J. Oertel July p 90
Changing Requirements of Hydraulic Fluids
Part 4—What Machine Manufacturers Need
By Allan E. Morris Aug. p 82
Designing Hydraulic Systems for the Heavy Ones
By Richard Gewartowski and and Jerry Reinhart Mar. p 79
Dual Piston Air Cylinder Controls Temperature of Press Platens
By Robert Thomas Nov. p 94
Fluid Power: Key to Sophisticated Sawmill
By Ivan G. Myers Nov. p 106
Hydrostatic Drive Gives Mixer Constant Hosepower May p 26
Pneumatic Logic Circuits
Part 15—Air Multivibrator Operates Ratchet Wrench
By E. L. Holbrook Sept. p 110
Pneumatic Systems Keeps a Taut Line
By Alwyn R. Waite June p 75
Servo-Controlled Pumps for Variable Speed & Constant Power
By F. S. Coleman Aug. p 67
Servosystem Controls Filament Winder Nov. p 39
2-Way Valve Positions Dies Accurately Nov. p 24

PUMPS

Air-Driven Pump Tests Pump Casings Aug. p 24
Changing Requirements for Hydraulic Fluids
Part 2—Comments From Pump Manufacturers
By Allan E. Morris Apr. p 130
Designing Hydraulic Components of Aluminum
By E. L. Roob Nov. p 108
Dual Pressure Compensator Pressurizes Press Rapidly
By Richard A. Danly June p 83
High Temperature Hydraulics for C-141 Thrust Reversers
By Robert Supinger and Frank Hribar Aug. p 95
How to Boost Reliability of Industrial Servo Systems
By Willard M. Walthall Sept. p 91
Hydraulic Pumps—Quick Guide to Product Selection Jan. p 130
Pumps, Fluid Motors & Accumulators—Fluid Power Products Review Jan. p 204
Pumps, Motors & Air Compressors—Fluid Power Products Review (Aerospace Products) Jan. p 242
Servo-Controlled Pumps for Variable Speed & Constant Power
By F. S. Coleman Aug. p 67
Servovalve Controls System Pressure and Horsepower
By Sidney G. Knight July p 87
Thermostatic, Hydraulic Control of a Cooling System
By Leonard M. Kovacheff May p 98
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

SERVO SYSTEMS & COMPONENTS

Determine Orifice Discharge Coefficients This Easy Way
By H. G. Carter Aug. p 76
Five Hydraulic Tracer Circuits
By Ramon Farrando Boix May p 88
How to Boost Reliability of Industrial Servo Systems
By Willard M. Walthall Sept. p 91
Hydraulic Milling Machine Runs Off Tape Control Nov. p 24
Hydraulic Tracer Controls Lathe Nov. p 20
Saturn V Actuator Tested on Dynamic Load Simulator Mar. p 107
Servo Simulator Withstands Vibration of Rocket Motor
By David W. Nestor Nov. p 89
Servosystem Controls Filament Winder Nov. p 39
Servosystem Gives Band Saw Constant Feed Rate
By Charles Whitmore June p 65
Servosystem Synchronizes Rotary and Linear Motions
By C. E. Cumberworth Apr. p 134
Servovalve Controls System Pressure and Horsepower
By Sidney G. Knight July p 87
Servovalves—Quick Guide to Product Selection Jan. p 140
Torque Motor Design for Space Environment
By Bill E. Duff June p 92
Trends in Machine Tool Hydraulics
By Robert L. Ruth Sept. p 94
Understanding Transient Flow Force in Valves
By Howard L. Harrison May p 92
Variable Supply Pressure Increases Servo System Efficiency
By Joseph L. Poggie Mar. p 110
What We Learned From the Dyna-Soar
By E. T. Raymond and S. J. Soderlund July p 104
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

TEST EQUIPMENT & MAINTENANCE

A Leakage Detection System for Component Test Stand
By Floyd W. Luher Dec. p 94
Air Motors—Quick Guide to Product Selection Jan. p 119
Air-Driven Pump Tests Pump Casings Aug. p 24
Contamination on TV
By Scholer Bangs Nov. p 120
Design Analysis Applied to Testing
By Oliver E. Drummond Mar. p 98
Design Concepts for Liquid Injection Thrust Vector Control
Part 1—System Considerations Sept. p 120
Gauges, Indicators, & Test Equipment—Fluid Power Products Review Jan. p 184
Generating Test Pressure Surges
By Dieter E. A. Tanneburg Mar. p 86
Hydraulic Motors—Quick Guide to Product Selection Jan. p 120
Hydraulic Service Tips
By G. C. Bonnell May p 75
Hydraulic Service Tips
By G. C. Bonnell Oct. p 105
Modified Hydraulic Test Cart Speeds Aircraft Testing
By Carl J. Erbe May p 104
Three Ground Units Support the XB-70
By Conrad A. Pelletier Dec. p 91

VALVES

A Design Approach to Pneumatic Control
By E. L. Holbrook Oct. p 91
Air & General Purpose Valves—Fluid Power Products Review Jan. p 216
Air Screwdriver Has Low, High Torque
By Herb J. Gailey Aug. p 80
Calculating Fluid Flows Through Orifices
By Lloyd M. Polentz Feb. p 66
Circuits Use Adjustable Magnetic Detent Valve Apr. p 30
Design Concepts for Liquid Injection Thrust Vector Control
Part 2—Liquid Injection Valves Oct. p 122
Designing Hydraulic Components of Aluminum
By E. L. Roob Nov. p 108
Directional Control Valves—Quick Guide to Product Selection Jan. p 104
Diverter Valve Actuated Pneumatically Nov. p 30
Flow Control Valves—Quick Guide to Product Selection Jan. p 110
Flow Divider Reduces Pump Requirements May p 24
High Temperature Hydraulics for C-141 Thrust Reversers
By Robert Supinger and Frank Hribar Aug. p 95
Hydraulic Valves—Fluid Power Products Review Jan. p 224
Koehring's Skooper—Pneumatics For Remote Control
By Charles L. Fleming Nov. p 81
Look for these Features when Selecting a Hydraulic Solenoid Valve Oct. p 107
Pressure Control Valves—Quick Guide to Product Selection Jan. p 123
Relay Valve Simplifies Air Circuitry
By Kent S. Ellis and Donald Delay Apr. p 126
Servovalve Controls & Protects Miner's Cutting Heads
By Carlton B. Frellsen Oct. p 85
Simplifying Pneumatic Maintenance June p 28
Teflon Bearings for O-Rings
By Robert E. Huffman Nov. p 85
Timer Valve Controls Air Press Circuit
By Pat Burns Dec. p 108
Understanding Transient Flow Force in Valves
By Howard L. Harrison May p 92
Valves—Fluid Power Products Review (Aerospace Products) Jan. p 248
Variable Supply Pressure Increases Servo System Efficiency
By Joseph L. Poggie Mar. p 110
Vented Relief Valve Cools Hot Robot
By Aaron Kutz Sept. p 112
Watch What You're Doing—With Solenoid Valves
By J. M. Levon Apr. p 124
What Should Pneumatic Valve Standards Include?
By Cary Rekstad
Part 1—Operating Life Mar. p 92
Part 2—Flow Capacity and Shifting Speed May p 94
Part 3—Electrical Characteristics July p 98
Part 4—Mountings & Markings Sept. p 98
What They're Doing with Pneumatic Control
By Allan E. Morris May p 76
The XB-70: Thrust Forward for Fluid Power
By R. J. Dawson Dec. p 79

AUTHOR INDEX
